

## "MICHAEL'S" July Clearance Sale

THE SALE COMMENCES SATURDAY, JULY 20th, AND CONTINUES THRUOUT THE MONTH

We might have named this sale with a bigger name but the name given tells our purpose—but remember that it means much—very much to those who buy dry goods. Briefly, there are a number of thousands of dollars worth of most dependable dry goods that will be sold at a very low price to those coming during the days remaining in this month. This does not mean that we cut the price of everything, but it does mean that a large portion of our superb stock will be on special sale. We quote some of our bargains:

### A large number of coats and suits at half price and less, late styles

The cold weather of the early spring retarded the selling of garments and as a result you will get some unusual bargains for you know that we never carry garments from one season into another, and when the spring of 1908 comes we will show only the new garments. Of course we will lose money—these prices tell you so—but someone will get a bargain—why not you?

**\$15.00 Fine Tailored Suits at sale price.....\$7.50**  
**\$17.50 Fine Tailored Suits at sale price.....\$8.75**  
**\$19.00 Fine Tailored Suits at sale price.....\$9.50**  
**\$20.00 Fine Tailored Suits at sale price.....\$10.00**

**\$2<sup>98</sup> WILL BUY COATS WORTH \$5.50, \$6.50 AND \$7.50.** These are semi-fitting fancy coats and are sold at a great loss on our part, but they must be sold and sold at once.

#### Never Such Waist Bargains

We have about six dozen more waists than we shall need to complete this season. They are all splendid styles, are excellently made and reasonably priced—but that matters not—they will be offered at the following reductions:

TEXAS is to bar consumptives and will have none of them within her border. The governor will issue a proclamation declaring tuberculosis a contagious disease and it will then be a statutory offense punishable by a fine of \$500 for a railroad company to haul a person afflicted with the disease into the state.

THE Duluth News-Tribune has started a boom for Harvey Grimmer as the next democratic candidate for governor of Minnesota. As the News-Tribune says, Harvey has proved his ability to fill the job, and why not nominate him and give him the title and salary as well as the responsibilities. During all the time that he has been governor de facto the state has never slipped a cog.

TALK about your train hold ups, mosquitoes have taken place of road agents down in Iowa. If reports are true a passenger train on the Milwaukee road near Des Moines was delayed two hours on account of the pests, while the passengers were driven from the cars and were compelled to build smudges along the track. This is no summer resort advertisement, either.

THE editor of the Todd County Argus has turned his paper over to "the boys" and retired to his farm until after the time hay harvest is over. The Argus man is one of very few newspaper men who accumulate money enough from the printing business to own a farm, but the Argus is a good piece of property, appreciated by its patrons, thereby allowing Bro. Sheets the privilege of "editing" a good farm as well as a good newspaper.

THE age of eggs has been a much mooted question, nearly as much so as "How old is Ann," but some fellow sufferer has come to the rescue and by actual tests is able to solve the problem as follows: A fresh egg will sink when placed in water and rest on its side; if three weeks old it will incline slightly with the small end down; if

three months old it will stand on the small end, and if older it will float with large end out of water more or less according to age.

GERMANY leads today in the manufacture and use of alcohol for light and power. In that country potatoes are the chief source from which alcohol is produced. The potato crop last year reached the astounding proportions of 1,775,579,000 bushels or more than 53,000,000 standard tons. Of this amount nearly one-half was used in the manufacture of alcohol and starch. One eighth of all the tillable land in Germany is planted to potatoes which show an average production of 217 bushels an acre, which sold at an average of 27.6 cents a bushel, or about \$60 an acre. In France alcohol for manufacturing purposes is made chiefly from molasses and sugar beets.

## VICTIMS OF THE HEAT

Hundreds of People Are Prostrated in Philadelphia.

## ONLY ONE FATALITY OCCURS

Crowd Watching Parade of Elks Suffers Most From the Heat and Humidity—Only a Few of the Paraders Stricken.

Philadelphia, July 19.—The parade of the Benevolent and Protective Order of Elks was marked during its progress by the prostration from heat of a number of persons, estimated by the police and hospital authorities at 2,500. Never has there been such a wholesale prostration of people in the city. For six hours the police, ambulance surgeons and the Red Cross nurses were kept on the run looking after persons who collapsed under the scorching rays of the sun and largely because of their excellent service but one case resulted fatally. James Rowley, aged forty-four years, of this city died in a hospital after being stricken in the street. The other stricken persons are said to be in good condition with no prospect of fatal results.

The parade ground was on Broad street for a distance of three miles north and the same distance south of the city hall. The paraders counter-marched the last three miles back to the city hall, so that they traversed upwards of nine miles, yet few of those overcome by the heat were in the line of march. Those who succumbed were among the spectators jammed along the street in a solid mass from one end of the line to the other. The temperature hovered around 90 degrees, the humidity was excessive and as a consequence people sweltered. Among a few of the paraders who were overcome were J. Harrington Walker, of St. Paul and Henry J. Walter, exalted ruler of the Philadelphia lodge of Elks.

Every attention was given to the spectators to see that they were protected, but it required four hours for the marchers to pass a given point and the eager people stood in the hot sun for two hours or more before the parade started. The total number in line of march is conservatively estimated at 20,000 men with about 120 floats.

## HOT IN NEW YORK CITY.

Three Deaths and Fifty Prostrations Reported.

New York, July 19.—The crest of the hot wave that reached town Wednesday touched this summer's record mark of 89 at noon Thursday. Then the temperature dropped to 75 in the evening, where it stood at midnight. Clouds hid the sun much of the afternoon and there was a sprinkling of rain. The humidity, however, continued excessive throughout the day and well into the night, causing much suffering.

Three deaths were reported to the police as having been due to the heat, while some fifty cases of prostrations were treated at the hospitals.

The parks were filled with men, women and children, while thousands slept on the benches at Coney Island. Late at night a southwest breeze somewhat relieved the situation.

## Three Deaths in Boston.

Boston, July 19.—With the temperature and humidity both most oppressive, Boston experienced great suffering Thursday. The temperature reached a maximum of 83 degrees. Three deaths and a dozen prostrations was the record of the day in the city and suburbs.

## FIGHT IN A CONVENTION.

Revolvers and Knives Drawn and Several Persons Injured.

Muskogee, I. T., July 19.—An attempt by Henry Asp, a railroad attorney of Guthrie, to address the Republican county convention here converted the meeting into a fighting mob.

Pistols were drawn, knives flashed and chairs wielded with telling effect, resulting in bruises and minor injuries to several persons.

Deputy United States Marshal Ledbetter appeared on the scene with a drawn revolver and restored order. Officers with drawn pistols, who threatened to shoot into the crowd if the fighting did not stop, failed to quell the disturbance before the appearance of Ledbetter.

The trouble started when Asp, opposed to Governor Frantz and the call for an election, attempted to address the meeting before the convention was called to order. Ledbetter saved Asp and took him to a place of safety. Frantz was victorious in the test vote for temporary chairman, and the meeting then proceeded in an orderly manner.

## One Killed and Three Injured.

Cheyenne, Wyo., July 19.—By the explosion of the boiler of a locomotive drawing a freight train near Latham, Wyo., an unknown tramp was killed and Engineer Robert C. Atkins, Fireman E. B. Verry and Brakeman Charles Howard, all of Rawlins, were fatally injured.

## Negro Murderer Electrocuted.

Columbus, O., July 19.—Henry White, a negro, convicted of the murder of Marshal Bazzore of Franklin, O., in October, 1906, was electrocuted in the annex at the Ohio penitentiary. White was indifferent to his fate.

FEWER ANIMALS  
THAN LAST YEAR

Assessor's Reports Show Less  
Live Stock in Crow Wing  
County than a Year Ago

BAY LAKE LOSES HALF  
County Loses Over \$100,000  
Valuation by Decision of the  
State Auditor

The county board of equalization ad-  
journd last night and an interview  
with Auditor Smart this morning  
brought out some interesting facts as  
to the assessment this year as com-  
pared with last year.

It is a noticeable fact that the total  
number of head of live stock in the  
county was materially decreased as  
compared with last year. The loss was  
most marked in the towns affected by  
the iron boom. The town of Bay Lake  
showed a loss of about half the live  
stock as compared with a year ago. At  
first glance this would look like care-  
less assessing, but the fact that the  
Deerwood creamery did not open up  
this year because so many farmers had  
sold their farms to iron men and left  
the country would seem to substantiate  
the correctness of the work of the  
assessor. The figures as to the num-  
ber of head of live stock, etc., in the  
county as shown by the assessors' re-  
ports for the two years are as follows:

	1906	1907
Horses, Mules, Etc.—		
1 year old	131	134
2 years	126	140
3 years and over	2789	2452
Stallions and race horses	4	9
Cattle—		
1 year old	1727	669
2 years	1360	1315
Cows	4865	4644
Working oxen	29	33
Other cattle over three years	214	148
Hogs	993	868
Sheep	1371	1289
Dogs	1034	744
Wagons, carriages, sleighs, etc.	2330	2003
Automobiles	2	0
Sewing and knitting machines	1248	1173
Watches and clocks	1140	1131
Organs and melodeons	258	351
Pianos	382	429

Brainerd reported 95 dogs last year  
and 95 this year, the crusade this spring  
evidently not reaching many of the  
dogs on which taxes were paid.

The town boards of the county raised  
the assessments from \$704,373 to \$732,-  
158. The county board made raises  
which will bring it up to \$836,854, the  
amount of last year.

The county loses the revenue on over  
\$100,000 in one case alone, that of the  
Cross Lake Logging company. By di-  
rection of the state auditor the assess-  
ment of all but \$9,000 out of \$112,000  
worth of property is transferred from  
Crow Wing to Hennepin county.

Brainerd's personal property was re-  
turned by the assessor at \$401,276. It  
was left last year by the county board  
at \$468,909. The county board this  
year made individual raises amounting  
to approximately \$22,000 and then made  
a horizontal raise of ten per cent,  
which will place the figures about  
where they were last year.

WILD ANIMALS SCARCE

Fine Group Can Be Seen With the  
Parker Amusement Company  
Carnival Week

Mr. Carl Hagenbeck, Germany's  
great animal exporter is responsible for  
the statement that the animal family  
is doomed. Every year marks the  
continuous decrease of animal life. It  
gives away to progress made into the  
hitherto hidden fastness of forest and  
jungle. Already the continent of North  
America has been practically depleted,  
Europe has hardly none of it. Aus-  
tralia has only the kangaroo and other  
small pouched animals. Even in Asia  
they are disappearing, while the enor-  
mous tide of immigration is so rapidly  
carrying man into every part of Africa  
betokens an equally lessening of the  
number and variety of wild animals on  
the dark continent.

Truly the largest and most expensive  
collection of rare and beautiful animals  
in the world may be seen with the C.  
W. Parker Amusement company.

During the past winter Cramer &  
Tyler's agents have been abroad in  
search of new exhibits of animal sa-  
gacity, with the result that the arenas  
and big steel dens in their "Zoological  
Eden" fairly swarm with strange and  
odd creatures. There may be found  
groups of beautiful, full grown, forest  
bred, African lions, and their tiny cubs.  
Some of the baby lions are as playful  
as kittens, and will serve to make many  
pleasant hours for the children who are  
fortunate enough to see them.

The South American puma family is  
also well represented, as is the tiger,  
leopard and Russian wolf.

Bears of five distinct species, all of  
which are trained to perform as are  
all the other animals, are also included  
in the vast collection.

Nero, the remarkable riding lion, un-  
doubtedly the only one in the world  
does a bare-back riding act on a horse,  
accomplishing feats from the politest  
style to the most difficult of those per-  
formed by human masters and mis-  
tresses of the horse with almost hu-  
man intelligence.

This one feature easily proves the  
wonderful power of man over the brute  
creation, and Mrs. A. G. Barnes, fa-  
mous trainer who taught this monarch  
of the forest to work in harmony with  
the horse—a lion's prey—has succeeded  
in that which all other animal educa-  
tors have failed.

A troupe of twelve genuine Arabian  
horses have been taught to do all sorts  
of difficult tricks. They do astonishing  
high leaps, mount pedestals, dance  
quaint Oriental movements and do queer  
trotting and pacing steps.

The Arabian horse is a noble animal  
and is treated as such by the sons of  
the desert. He is a gift of God, and  
therefore priceless. As every one  
knows the pure Arabian horse is black  
or bay. But among the rarest breeds  
white spots are sometimes found on  
their heads and parts of the body.  
Lovers of the rare and beautiful in  
horses should not miss seeing this al-  
most priceless group of animal aristoc-  
racy in the animal circus.

Base Ball Notes

The Staples base ball team will play  
the fast Minneapolis Chamber of Com-  
merce team at Staples Sunday. Norris  
will pitch for Staples and there will be  
a fast game played.

The North Star team went to Aitkin  
this morning to play at the carnival  
being held there today.

There was no game played in the  
church league last night, there having  
been some misunderstanding as to the  
playing the Saturday game at that  
time and the Presbyterian team did  
not show up. The game will probably  
be played Saturday as scheduled.

The Peoples and the First Y teams  
are scheduled to play tonight. If five  
innings are played it will be necessary  
to commence at 7 o'clock sharp.

FRANK SLIPP MARRIED.

To Miss Beatrice Brannon, of  
Bemidji, at Home of Bride's  
Parents in Latter City.

A very charming home wedding was  
that of Miss Beatrice Brannon and Mr.  
Frank Slipp which took place last even-  
ing at the home of the bride's parents,  
Mr. and Mrs. W. S. Brannon of 520  
Minnesota avenue. The service was  
performed by Rev. Father Blais, in the  
presence of the immediate relatives.

Promptly at 9 o'clock Miss Blanche  
Boyer sounded the chords of the Lohen-  
grin Wedding March and Rev. Father  
Blais entered, followed by the groom  
and Mr. George Fleming as best man.  
They advanced to the canopy and there  
awaited the bride, who entered on the  
arm of her father, preceded by her  
sister, Miss Beulah Brannon, as maid  
of honor, and little Jean Morrison as  
flower girl.

The bride wore a beautiful princess  
gown of white net, embroidered in  
pink roses over white taffeta and  
carried a bouquet of bride's roses.

After the ceremony an informal re-  
ception was held and light refreshments  
were served. Mrs. J. LaMour, Jr., of  
Pembina, N. D., presided at the punch  
bowl.

Mr. and Mrs. Slipp left on the mid-  
night train for Duluth, and will be at  
home, after Sept. 1st, in this city.—  
Bemidji Pioneer.

Mr. and Mrs. Slipp are now in city  
visiting Mr. Slipp's mother, Mrs. D. E.  
Slipp.

The many friends of Mr. Slipp in this  
city extend congratulations and best  
wishes.

INSTALLED BOARDING CARS

Cars Were Installed at the Tie Plant  
Last Night to Accommodate Men  
Working Peeling Ties

Roadmaster Tyler reports that board-  
ing cars were installed at the tie pre-  
serving plant last night to accommodate  
the men employed at the tie plant at  
the work of unloading and peeling ties.  
The men had been kicking for some  
time about the distance for board,  
many making that an excuse for quit-  
ting the job. Yet when boarding cars  
were installed and preparations made  
to serve supper there last night not a  
single man stayed, all coming to town.  
Mr. Tyler has given orders that no  
hand cars be furnished hereafter, ex-  
cept to those actually residing in Brainerd.

The railroad company has for several  
weeks been sending men here nearly  
every night in an effort to keep a full  
gang there, but the most of them, ac-  
cording to Mr. Tyler, have not the  
slightest desire to do more than work  
the company for transportation and a  
square meal or two and a bed. If they  
can do that they go on their way re-  
joicing.

A Charming Social Event

Mr. and Mrs. H. I. Cohen entertain-  
ed at luncheon at their beautiful home  
on Wednesday in honor of Mr. and Mrs.  
John T. Beadle of Traverse City, Mich.,  
guests of Mr. and Mrs. W. A. M. John-  
stone.

The company gathered at high noon  
and were called to the dining room at  
1 o'clock where covers were laid for  
eighteen. The appointment of the din-  
ing room as well as of the parlors were  
faultless. Especially artistic were the  
place cards which were decorated with  
gilded wishbones symbolic of the golden  
wishes of the host and hostess.

The enjoyment of the elaborate lunch  
was heightened by delightful conversa-  
tion on interesting topics, both religious  
and secular. At the close of the repast  
Mrs. Cohen whose taste leans lovingly  
to literature, read in her usual accept-  
able manner a pleasing story.

The out of town guests were, besides  
Mr. and Mrs. Beadle, Rev. Harry  
Knowles, of Duluth, who is a guest of  
Mr. and Mrs. Charlie McKay and Mrs.  
Yager of the same city who is visiting  
in the family of her parents, Mr. and  
Mrs. R. K. Whitley.

Mr. and Mrs. Beadle highly appre-  
ciate the kind hospitality that is daily  
extended to them by many of the repre-  
sentative families of Brainerd.

FARM, HOME AND GARDEN

FARM NOTES

Plant some garden peas where you  
have taken out the lettuce, radishes and  
early onions. They will be ready to  
eat in early September and will be a  
decided novelty and very appetizing  
then.

Have you tested your dairy cows to  
see which ones are profitable? If not  
why not do so before winter sets in.  
Now is the time to fatten the unpro-  
fitable cow. You must be a rich man  
to be able to feed a cow that does not  
give good returns.

Buy a sheep for your boy. Let him  
have a per cent. of the increase. It  
will interest him in the farm more than  
any amount of talking or scolding.  
Above all if you give him a calf, colt  
or sheep let him have the money when  
it is sold. More boys have left the  
farm disgusted because it was the boy's  
calf and father's steer than for any  
one reason. The injustice of the thing  
will rankle in the boyish heart for years  
and be nursed as a grievance which  
finally makes him sullen and brings on  
the final rupture which drives him from  
the farm.

It is better to buy a good animal  
with a poor pedigree than a poor animal  
with a good pedigree. It does not fol-  
low, however that because a well bred  
animal has not good points for the prize  
ring it is worthless or comparatively so  
for the farm. Such is not the fact and  
variations in markings that would bar  
a fowl from the poultry show do not  
affect the flavor of the meat or the  
number of eggs.

With eggs never getting below 15  
cents a dozen in Crow Wing county and  
ranging into the thirties it would seem  
that with proper attention in the winter  
egg farming should be profitable here.  
The editor of this department would  
like to have the experience of some one  
who has tried it and kept an exact ac-  
count of receipts and expenditures.

PUSHING SWEET PEAS

During the early spring months I  
emptied the wood ashes, from the  
heater and cooking stove, over the  
ground that I intended to use for  
flowers. When the time for planting  
came, my husband dug a trench for me,  
which I filled half full with ashes.  
Over the ashes I threw an inch or two  
of soil, and planted sweet peas, cover-  
ing them one inch. In a few days they  
were up, and such vines as I had!  
When they were six inches high I laid  
cedar brush along one side of them.  
They grew five and six feet tall, and  
gave such quantities of lovely flowers  
all summer. I fertilized them once a  
week with soap-suds, left from my

washing, and hced them three or four  
times during the season, each time  
drawing the dirt about them, but never  
making a narrow ridge for them to  
grow in. When this is done they dry  
out too much, and do not bloom well.  
Nasturtiums, also, shared the same  
treatment, except I did not give them  
so many ashes. I kept the flowers  
picked from both sweet peas and nas-  
turtiums. Soap-suds is my fertilizer  
for almost all sorts of flowers. Noth-  
ing better can be given to rose bushes.  
—Mrs. C. W. J., Russell County, Va.  
Nov. 1908.

G. B. Burhans testifies after 4 years

G. B. Burhans, of Castle Center, N.  
Y., writes: "About four years ago I  
wrote you stating that I had been en-  
tirely cured of a severe kidney trouble  
by taking less than two bottles of Fo-  
ley's Kidney Cure. It entirely stopped  
the brick dust sediment, and pain and  
symptoms of kidney disease disappeared.  
I am glad to say that I have never had  
a return of any of those symptoms dur-  
ing the four years that have elapsed  
and I am evidently cured to stay cured,  
and heartily recommend Foley's Kid-  
ney Cure to any one suffering from  
kidney or bladder trouble." H. P.

Our great clearance Sale will afford a splendid opportunity to secure trustworthy merchandise at lower prices in many instances than the goods can be manufactured for at the present time.

Some are selling at 25 per cent off, some at 33 per cent off, and many at half their original prices.

All departments have accumulations of certain lines of goods—some soiled, some broken lines or odds and ends, but mostly surpluses, all of which must be positively closed out.

Strenuous efforts are made to reduce stock and have it "clean" when our Fall goods arrive. Until these BARGAIN LOTS are sold you will find it to your advantage to shop at **B. Kaatz & Son's** everytime you are in need of anything. New bargains are added from day to day.

The lots are so numerous and prices so low, it is impracticable to advertise them in detail; but in every section of the store you are sure to find bargains.

Of course, everything is for cash only and during this entire sale we will not make any credit charges, but we assure you your dollar will buy more than it ever did before.

This sale commences **Friday, July 19,** so come early and get your choice of our complete stock.

## ITALIANS ARE GUILTY

Convicted by Jury in the Lamana Murder Case.

### WILL GO TO PRISON FOR LIFE

Exempted From Capital Punishment by the Verdict—Mobs Formed With the Intention of Lynching Prisoners, but Troops Forestalled Them.

Hahnville, La., July 19.—The jury returned the following verdict in the Lamana kidnapping and murder trial: Mr. Campisciano, Mrs. Campisciano, Tony Costa and Frank Gendusa guilty, without capital punishment.

The verdict was reached after the jury had been out forty-five minutes and at the close of a four days' trial full of excitement.

Absolute silence greeted the foreman's announcement. The spectators listened quietly while the jury declared that its verdict was unanimous and then court adjourned. An hour afterward it was reported that preparations for a lynching were under way. A physician gave out a statement declaring "that the good people of St. Charles repudiate the verdict," and calling it a "prostitution of justice."

The lynching reports appeared as far as New Orleans and the local officers were apprehensive that a party might be made up in that city to aid in such an attempt. The distance between here and New Orleans is twenty miles. Only three of the prisoners were mentioned in these rumors of violence, Mrs. Campisciano being omitted. The verdict was generally satisfactory in her case. The others are the woman's husband, Collagero Gendusa and Tony Costa.

### Prisoners Returned to Jail.

The prisoners were returned to St. Charles parish jail, an isolated structure standing in the fields a quarter of a mile away from any habitation except the sheriff's house and the courthouse. It was deemed unwise to take the prisoners back to New Orleans by train at night, since the railroad would have to take them through a wild country. The sheriff has repeatedly declared that he can prevent lynching of the Italians in his parish and he is looked upon as capable of defending the men.

In the trial that has just closed the state did not succeed in proving that any of the accused committed the actual murder. It was testified that Campisciano and his wife shielded the kidnapers from capture, even throwing the police off the trail when they were within a short distance of the boy's hiding place an hour before his murder. Campisciano did not deny this, but claimed that he had been forced by threats of death to act as he did. Collagero Gendusa was the go-between for the ransom money and Costa, according to witnesses, was the actual kidnapper who stole the boy and gave him to the kidnapers. Costa denied this while testifying in his own defense.

Campisciano testified that the murderers were Angelo Incarnacaterre, Tony Gendusa, Stefano Monfro and Chico Luchesi. These four have not been captured.

Campisciano also implicated in the plot Leonardo Gebbia and Nicolina, his sister, both of whom will be tried next week.

### MOB FINALLY DISPERSED.

Gave Up the Intention of Lynching Italian Prisoners.

New Orleans, July 19.—A posse formed at Gretna, across the river from New Orleans, with the avowed purpose of making an attempt to reach Hahnville. There was little prospect that this posse could get to Hahnville by train and attempts were made to secure a tug or towboat, as Hahnville is on the river.

The posse in Gretna dispersed after several conferences. It was composed of about 300 men.

The prisoners will be sentenced probably on Monday by Judge Edgington, who must give them life imprisonment. They may, however, under Louisiana laws go free at the end of fifteen years for good behavior and mitigating circumstances.

Eighty-two state soldiers reached the Hahnville jail after passing through a mob of several hundred persons in Gretna, who tried to induce the train crew to sidetrack the militia special. The mob hoped thereby to get to Hahnville first.

Messages from the jail where the Italians are confined say that a crowd headed by leading men of the parish, who early in the evening gathered about the jail and discussed whether the prisoners should be lynched, dispersed, and it was agreed among these men that they would neither hang these prisoners nor permit anyone else in their parish to do so.

### Two Fishermen Drowned.

Vancouver, B. C., July 19.—Two fishermen lost their lives in what is regarded by steamship men as the worst storm they ever have seen in the northern end of the Gulf of Georgia. No information could be obtained regarding the identity of the cannery from which the boat had come.

### Wisconsin Commissioner Resigns.

Madison, Wis., July 19.—John Earnes has resigned as chairman of the Wisconsin railroad rate commission. His action was provoked by the legislature passing a 2-cent fare bill after the commission had ordered a 2½-cent rate.

## STRIKE OF TELEGRAPHERS

Hints of Friction Among Leaders of the Movement.

San Francisco, July 19.—Thursday was a day of activity in the ranks of the striking telegraphers at Oakland. Committees were appointed and many impromptu conferences held and several operators waited on the three members of the executive committee, M. J. Reldy, S. J. Konenkamp and J. M. Sullivan, but absolute silence was maintained as to the meeting.

It was evident that the situation was considered serious and that there were hints of increasing friction among the leaders of the strikers.

It has been rumored persistently for the past few days that there was a serious break between President Small and his executive committee men.

The telegraphers after their meeting reported that they had refused to accept the concessions as framed by their national executive committee. These concessions, they stated, included an offer of a 25 per cent increase in pay on the part of the Western Union and the acceptance of all but three of the strikers in their old places.

The Postal, they said, had offered to take back 80 per cent of the men out.

President Small wired the result of the meeting to Chicago but would not say what its effect would be and whether he would go East.

Labor Commissioner Neill has left for Washington because of the illness of his wife.

### Fatally Hurt in a Fight.

Minneapolis, July 19.—Samuel Anderson, a laborer, was probably fatally injured in a fight at Twelfth avenue south and Third street. Max Muscovitz and Samuel Silber, alleged to be Anderson's assailants, are under arrest. It is alleged that they attacked Anderson with bricks as weapons. At the city hospital it was found that Anderson's abdomen had been injured. His skull may be fractured. He may die.
